

Dear Stakeholders,

We are proud to announce a significant milestone in our sustainability journey : **KP Sanghvi's flagship diamond manufacturing facility in Surat, India**, has achieved the prestigious **Platinum-Level LEED Certification**, awarded by the U.S. Green Building Council.

This landmark achievement underscores our dedication to the United Nations Sustainable Development Goals (SDGs) and highlights our pivotal role in the Watch and Jewellery Initiative 2030 (WJI 2030). By adhering to global sustainability standards, KP Sanghvi is committed to raising the bar for ethical and sustainable practices across the diamond supply chain.

Pioneering Sustainability Standards

Achieving LEED Platinum Certification marks a significant leap forward in KP Sanghvi's mission to integrate sustainability into every facet of its operations. Our state-of-the-art facility employs advanced green technologies and practices, making a tangible contribution to the SDGs and fostering a more sustainable future.

- **Reducing Greenhouse Gas Emissions (SDG 13):** LEED-certified buildings are engineered for superior energy efficiency, drastically reducing the facility's carbon footprint.
- **Enhancing Health and Well-Being of Employees (SDG 3):** Infrastructure upgrades have **decreased indoor CO2 levels by 60%** (from 1800 ppm to 725 ppm), fostering a healthier work environment and enhancing productivity.
- **Water Conservation (SDG 6):** LEED's focus on water efficiency helped us **save 5 million liters annually**, enough to provide drinking water for 15,000 people yearly. 3.6 million liters were saved with water-efficient plumbing, and 1.4 million liters replenished through groundwater wells.
- **Sustainable Resource Management (SDG 12):** Recycling **95% of on-site waste**, including organic material, paper, plastic, and e-waste, significantly reduces landfill impact. These efforts support a circular economy while promoting eco-friendly practices.
- **Affordable and Clean Energy (SDG 7):** By adopting renewable energy sources and upgrading infrastructure, we mitigate the heat island effect and reinforce our commitment to achieving carbon neutrality.

KP Sanghvi's unwavering commitment to sustainability extends beyond its facilities to encompass ethical sourcing, workforce welfare, and operational transparency. By championing elevated environmental and ethical standards, we aim to create enduring value for our stakeholders, society, and the planet.

With Regards,

Kishore Sanghvi,
(Chairman)
