

Impact in MOTION

Edition 9

A Legacy of Responsibility, A Future of Progress

As we move further into 2026, this is an opportunity to reflect on our direction and reaffirm our commitment to purposeful growth. At KP Sanghvi, progress has never been defined solely by expansion, but by the value we create, the responsibilities we uphold, and the communities we strengthen. Our journey continues to be guided by long-term thinking, disciplined execution, and enduring principles.

The milestones we pursue reinforce a belief we hold firmly: sustainable impact is built through consistency and clarity of purpose. As we look ahead, we remain committed to responsible innovation and meaningful growth, guided by responsibility and driven by impact.

25 YEARS OF PAVAPURI: A LIVING ECOSYSTEM OF IMPACT

In 1996, KP Sanghvi acquired 230 acres of barren land in Rajasthan, laying the foundation for what is now Pavapuri. What once stood as dry, unused land has steadily evolved into a beautiful and purposeful ecosystem supporting communities, nurturing nature, and creating access to opportunity.

The vision was never limited to development alone. It was rooted in strengthening nearby villages, bringing education within reach, improving access to healthcare, generating livelihoods, and creating infrastructure that would support long-term growth. Each step built upon the last, shaped by patience and consistency rather than short-term action.

Twenty-five years later, Pavapuri stands as living proof that impact compounds when commitment is consistent.

Impact Created Over the Years

Animal Welfare & Protection

\$1.8Mn
annually spent
for welfare

Regular
vaccination
drives

5,500+
rescued animals
currently sheltered

24x7

veterinary hospital
with modern medical
and physiotherapy
facilities

183-acre
animal welfare ecosystem
established

Education & Social Empowerment

Contributed to
50%
of girl child
education

1500+
students educated
annually

Built
**3 Educational
Institutions**

Improving access
to quality education in rural parts of Rajasthan

Relief & Humanitarian Support

Essential Kits, Medical Equipments, Food Distribution, Agro products, Contributed to emergency and disaster relief initiatives

10+
Disaster Relief Camps

Healthcare Access

OPD Block
for Sirohi District Hospital was established to provide healthcare to underserved communities

Medical camps
conducted annually for unreserved rural communities

Environment & Sustainability

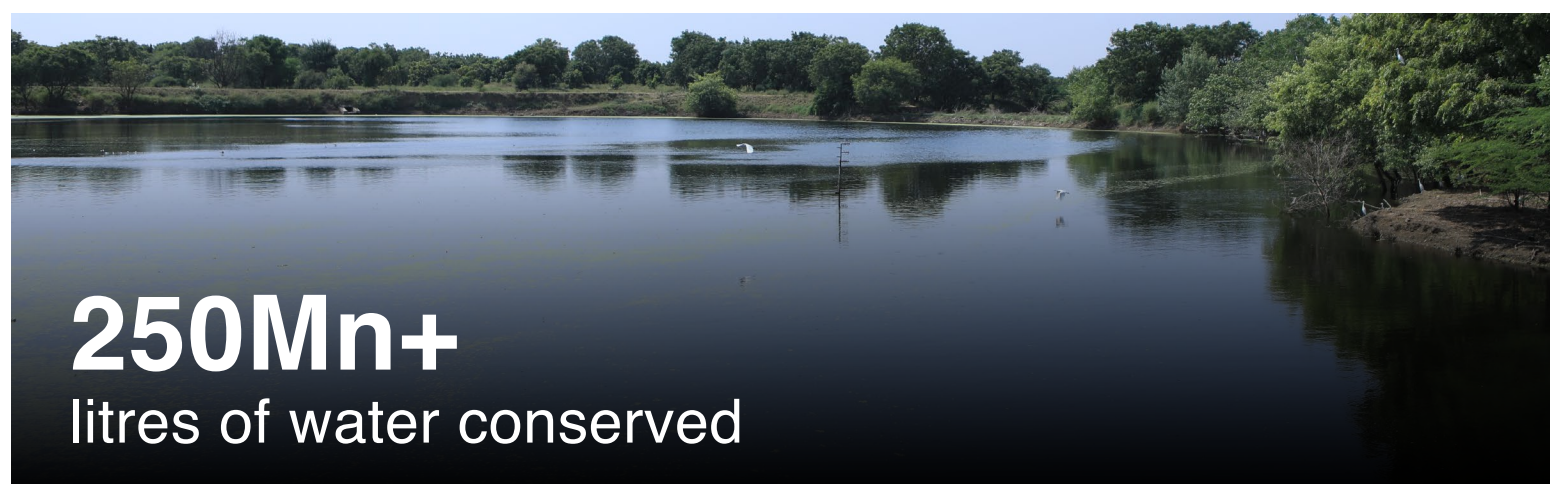

50%
Powered by Renewable Energy

300 acres
of land converted to green grass land for cattle feeding

300,000+
trees planted

250Mn+
litres of water conserved

Community & Livelihoods

Increased local opportunities and economic activity in surrounding areas

300+ livelihoods generated yearly

50%
employment from local tribal communities

LAUNCHING

EMFEX

E N E R G Y

The Next Chapter of Responsible Growth

As global industries transition toward cleaner, more sustainable energy solutions, businesses must evolve beyond conventional models. Emfex Energy is our step toward contributing meaningfully to this transformation — strengthening energy resilience while aligning with broader sustainability priorities.

This initiative reflects our belief that responsibility must extend beyond philanthropy into the core of how we build and scale businesses. By investing in energy solutions designed for efficiency and sustainability, we reaffirm our commitment to long-term impact, environmentally and economically.

COLLECTIVE ACTION FOR A GREENER TOMORROW

X

A team of 90 students, along with KP employees, came together to plant 330 saplings across 1,076 sq. ft. As part of a structured learning initiative, the students actively participated in the drive, gaining practical exposure to afforestation and environmental stewardship. More than a plantation activity, the initiative reflected a shared commitment to restoration, responsibility, and building a greener future through collective action.

Aligned with our sustainability roadmap and commitment to the United Nations Sustainable Development Goals (UNSDGs), KP Sanghvi collaborated with the Surat Van Mitra Foundation to advance urban afforestation through the Miyawaki method.

This scientifically driven approach enables dense, native forest growth, helping mitigate the effects of climate change and enhance regional biodiversity. The plantation was carried out in Surat at Althan's old dumping site, transforming a once-neglected space into a developing green zone.

ANIMAL PROSTHETIC REHABILITATION INITIATIVE

Aligned with our commitment to responsible care and the United Nations Sustainable Development Goals (UNSDGs), KP Sanghvi partnered with Shree Bidada Sarvodaya Trust—also associated with Vantara, Reliance’s animal rescue initiative—to strengthen rehabilitation efforts at our Pavapuri shelter.

As part of this initiative, 15+ animals, including cows, camels, and dogs, have been fitted with prosthetic limbs. Supported by a 24x7 veterinary hospital and ongoing rehabilitation, the focus remains on sustained recovery and care.

CELEBRATING WOMEN, EVERY DAY

At KP Sanghvi, empowering women is integral to who we are. This International Women’s Day, we celebrated the strength and resilience of the women who shape our journey.

Through initiatives focused on health and well-being, we reaffirm our commitment to fostering an inclusive environment where women can grow and thrive.
